Native Americans in our region celebrate by sharing food, such as fruit. Wojapi (woo-jha-pee) is a fruit pudding made from cooking the fruit that was gathered in the wild to make a thickened sauce. Fruit included chokecherries, plums or wild strawberries sweetened with honey. Today this food item is served with bread at celebrations such as powwows, or wacipi (wah-chee-pee), and give-aways. This is a very simple version that children can make at home in the microwave oven.

The children loved the salsa. They said it was different and not the kind of salsa they had before. "We never knew that we could eat salsa that have fruit in it". This recipe was used during the summer camp. The youth used ingredients from the community garden.

Lentil Hummus

SAUCES

Yield: 15 servings, serving size: 2 Tbsp.

INGREDIENTS

- 1 c. red or golden lentils
- 1 c. garbanzo beans (chickpeas), cooked or 1 c., canned, drained and rinsed
- ¼ c. nonfat plain yogurt
- 1½ Tbsp. lemon juice
- 1 clove garlic, crushed
- 1 tsp. salt
- ½ tsp. pepper
- 1½ Tbsp. olive oil

INSTRUCTIONS

Place the lentils in saucepan and cover with water by 2 inches. Bring to a boil; reduce heat to low. Cover and simmer for 20 to 25 minutes or until the lentils are soft and mushy. Drain the lentils. Set aside for about 20 minutes to cool.

Place the lentils, garbanzo beans, yogurt, lemon juice, garlic, salt and pepper in a food processor. Pulse several times until finely chopped. Scrape down the sides of the bowl. Turn on the processor and slowly add the olive oil while the motor is running. Add enough olive oil to get desired consistency. If hummus is too thick after adding 2 Tbsp. of olive oil, blend in water, adding 1 Tbsp. at a time.

Put hummus in a bowl or container. Cover and refrigerate for at least one hour before serving. Hummus will keep in the refrigerator for four to five days.
