Apple Cinnamon Wrap and Roll

INGREDIENTS
- 3 Tbsp. Sugar
- 1 Tsp. Cinnamon
- 2 Apples (2 c. chopped)
- ¼ Cup Low-fat Vanilla Yogurt
- 4 Medium (6-inch) Flour Tortillas
- 3 Tsp. Vegetable Oil

INSTRUCTIONS
Mix sugar and cinnamon in a small bowl. Pour 1 tsp. of oil in a saucer.
Wash and chop apples into small pieces. Place in medium bowl.
Add yogurt to apples, stirring to combine.
Lay tortilla flat on plate. Use fingers to lightly coat top side with oil. Sprinkle it with a spoonful of cinnamon sugar mixture.
Turn tortilla over so un-oiled side is up. Put ¼ c. of the apple mixture, on half of the tortilla, folding the other tortilla half over the mixture.
Heat 2 tsp. oil in frying pan on medium.
Place folded tortilla in pan and cook about 1 minute, or until lightly browned. Flip to cook second side. (if oil starts to smoke, remove pan from burner for a minute and then continue.)
Remove from pan and cut in half.
Repeat with remaining tortillas.

Apple Cinnamon Wrap and Roll has been a favorite of educators and participants since our Get Fresh campaign was launched in NY in the early 2000s. This was an effort to increase traffic at farmers markets, promote consumption of locally produced fruits and vegetables, and promote use of farmers’ markets coupons across the state. This recipe was also a perfect vehicle to promote NY state apples. Cornell has developed 65 different apple varieties over the years. The newest - SnapDragon and RubyFrost were released in 2013. NYS is #2 in apple production. The recipe is easy to prepare, requiring minimal kitchen equipment, uses ingredients easily found, and can be eaten warm or held and eaten at room temperature.

**Kids like cookies, and this is a good way to get them thinking about different cookie flavors, and that when they cook for themselves they can make changes like adding/omitting raisins and nuts into recipes like this. This is a great recipe to use to brainstorm with kids flavors or other things that would go well in these cookies.**

“Orange Julius” was a quick and easy recipe used in the Today’s Mom Curriculum of Auburn University EFNEP. Moms-to-be welcomed this refreshing, nutritious beverage that was easy to digest as a morning meal. Orange Julius was a calcium-rich recipe that proved to be a healthful treat for mom and baby alike.
Yogurt and fermented milk products have been consumed in India, Pakistan, Bangladesh, Iran, Turkey and Egypt from time immemorial. Fresh milk spoils in the heat of these hot, dry countries very rapidly. So milk is fermented to yogurt, which then is churned or blended with fruit, and a little honey or sugar is added to produce a refreshing light drink that protects from heat and dehydration. Lassi is pronounced “lussie,” not “lassie,” and is the name used in India/Pakistan. A salted version also is consumed in many countries.

Peach, Mango or Nectarine Lassi

Yield: 2 servings

INGREDIENTS
- 2 ripe peaches, mangoes or fresh seasonal fruit
- 1 c. plain yogurt (low fat)
- 1 c. ice cubes or ½ c. cold water
- 1 Tbsp. honey

INSTRUCTIONS
Cut the fruit in half, remove and discard the seed (pits), and chop them (you should have about 1½ c.).

Put the fruit and the rest of the ingredients in the blender and cap tightly.

Turn the blender to medium to start chopping the fruit and ice. Adjust the blender to high speed and blend until the mixture is really smooth and moves easily in the blender, about one minute.

Serve right away, or cover and refrigerate up to 24 hours (if you do this, stir it well or blend again before serving).

Garnish with a few cubes of fruit and mint leaves

Notes: No fresh peaches? No problem! When fresh fruit isn’t available, you can use 2 c. of frozen fruit slices and skip the ice.

It's really fun and simple to prepare, is surprising and tastes delicious. The kids are always amazed they taste so good with spinach. Easy to prepare, transport, and store. Everyone loves it and it is such a cool color. People are thrilled to be able to get greens in a tasty way. It is very flexible as chard, kale, or lettuce greens could be subbed for the spinach. And the other ingredients many will have on hand. The bright green color makes people very curious (and skeptical) but when they taste it, they love it. So fun!

*Nelly Camacho created this recipe 15 years ago as a way to introduce new foods (tofu) in a culturally relevant way, working with a Latino population. WIC and other food assistance programs often provide foods like tofu and many recipients do not know how to prepare it.*

*Participants say: I love it! It is the first time I’ve had tofu and I will prepare it for my kids. I never had tofu like this.*

The Trail Mix recipe is one of my go to recipes for youth. I leave out the peanuts due to food allergies with so many children. It’s a great recipe for introducing them to dried fruit such as dried cranberries (craisins), raisins, dried cherries and other dried fruit. The recipe is easy for the youth participants to prepare and it’s always a hit with my classes.

So many of my youth participants have never had dried cranberries (craisins) before. So many of them have really enjoyed tasting the dried cranberries and stated they made the trail mix one of their favorite snacks I have served in our classes.
